

XXVII. USE OF TITLE IF REGISTERED IN OTHER JURISDICTIONS

Tennessee Code Annotated §§ 62-2-102(a) and 62-2-103 prohibit individuals who are not registered to practice architecture, engineering or landscape architecture in this state from making public use of the title “architect,” “engineer” or “landscape architect,” or any appellation thereof which gives or is designed to give the impression that the person using same is an architect, engineer or landscape architect in Tennessee.

The Board has determined that individuals who are not registered in Tennessee, but who hold a like unexpired certificate of qualification or registration in another state, territory or possession of the United States, or another country, may use the title “architect,” “engineer” or “landscape architect,” provided that the jurisdiction(s) in which they are registered is/are written or printed after the title so as not to mislead the public regarding their credentials. However, these individuals are cautioned that they must become registered in Tennessee before offering architectural, engineering or landscape architectural services to the public.
